1. INTRODUCTION

This policy sets out the requirements of the Australian Institute of Quantity Surveyors (AIQS) for assessment of Skilled Migration Applications.

The AIQS is a professional standards body. Through its leadership, standards and Code of Conduct, it ensures that practicing members are dedicated to maintaining the highest standards of professional excellence. The Institute is a national organisation with Chapters and Branches in all States and Territories. It also has a strong overseas membership and is the peak Australian body to the International Cost Engineering Council and the Pacific Association of Quantity Surveyors.

2. ABOUT SKILLED MIGRATION

If you wish to apply to migrate to Australia as a **Quantity Surveyor** under the General Skilled Migration Program, you will need to have your skills assessed by the AIQS prior to submitting your Expression of Interest (EOI). The AIQS will assess your qualifications, in combination with your skills and professional memberships skills as either “**suitable**” or “**not suitable**” for your nominated occupation against the AIQS requirements it has established.

The AIQS also provides a separate “Qualifications Only” assessment of Australian qualifications which have been accredited by the AIQS. This option may be used for the purposes of Skilled Migration, however, the Assessing Authorities Quality Assurance (AAQA) functioning through the Department of Education, Skills and Employment (DESE), requires that applications for Skilled Migration are to be based on a combination of an applicant’s qualifications and work experience.

The AIQS is nominated by the Department of Home Affairs as the relevant assessing authority for the occupation of Quantity Surveying ANZSCO 233213 **only**. Based on the definition by the Australian Bureau of Statistics (2122-11), a Quantity Surveyor:

“Estimates and monitors construction costs from the feasibility stage, through tender preparation, to the construction period and beyond. The entry requirement for this occupation is a Bachelor’s Degree or higher qualification. In some instances relevant experience is required in addition to the formal qualification.”

For the purposes of this Policy, the AIQS can assess all skilled migration assessment applications for Quantity Surveyors. *Quantity Surveying* means the science or profession concerned with:

- building and engineering economics
- financial, resource and contractual management
- dispute resolution
- quantification of material and labour inputs
- For all types of building, construction and industrial projects

Quantity Surveyor(s) includes but is not limited to the designations:

- Building or Construction: Economist, Cost Consultant, Cost Manager or Arbitrator
- Cost or Budget: Analyst, Consultant, Controller, Engineer, Manager or Planner
- Estimator
- Project Manager or Planner

Qualifications will be assessed by the AIQS, utilising Country Education Profiles (CEP) Online, a tool maintained by the Australian Government, Australian Educational International, as well as Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS).

As an assessing authority, the AIQS is **unable to provide migration advice**. It is the responsibility of the applicant to ensure they understand the requirements of the Department Home Affairs for the visa they wish to apply for <https://www.homeaffairs.gov.au>

3. FRAUD

Information you provide to the AIQS may be used for data matching with relevant Australian Government agencies.

It is an offence under Australian immigration law to provide false documents or make misleading statements in a visa application.

The AIQS strictly adheres to Australian immigration laws and will immediately report suspected fraud in a skills assessment to the Department of Home Affairs. The sanctions regarding misleading applications may also include a 3-year ban from applying for a skills assessment with AIQS.

3.1 IDENTITY CHECK

To obtain a level of identity assurance aligning with that of Home Affairs, we require a certified colour copy of the bio page of your passport, in addition to certified colour copies of at least two of the following documents:

1. Birth certificate
2. Where possible, an Australian visa (supported by a foreign passport, which is needed for verification) OR ImmiCard
3. At least one other official photo bearing document
4. ID Card where relevant.

4. ASSESSMENT PROCESS

4.1 ASSESSMENT PROCESSING TIME

The processing time is calculated from the date the application is received, provided all required documents have been submitted. Whilst the AIQS will endeavour to undertake all assessments within two months of receiving the application, some more complex applications may take over two months to complete. Applications will be acknowledged via email within five working days of receipt.

If there are any deficiencies in your application, your assessing officer will notify you via email. If all relevant documents are not then received within 8 weeks of initial application, the application will be suspended and no refund will be provided.

Please only send the requested documents as per the checklist found on the application form. If supporting documents are missing or irrelevant documents are attached, the application will be deemed void.

Once your application has been completed and assessed by the Assessors, you will receive a letter by email advising you of the outcome.

4.2 ASSESSMENT PROCEDURE

It is important to note that assessments under Pathways 1, 2, 3, or 4 consists of two consecutive parts. The primary component is an assessment of your qualifications (minimum Bachelor's degree equivalent to AQF Level 7 or higher). Subsequent to this, an assessment of your work experience will be carried out. Should your qualifications not be deemed "suitable" then the final outcome of your entire assessment will not be considered "suitable." If the minimum amount of postgraduate work experience is not found "suitable", then the final outcome of your entire assessment will not be "suitable."

4.3 ASSESSMENT PROCESSING FEES

New Assessment Fee: All applications for skilled migration assessment must include payment of the relevant administration fee (deposit) and assessment fee. Before assessment commences, applications can be withdrawn at any stage. The administration fee will be charged in all cases. Once the application has been submitted to the assessor/s, a refund of the assessment fee will not be issued.

Appeal Fee: The AIQS provides an appeal mechanism for consideration of any applicants who object to the finding of an overall "not suitable" result of their skilled migration assessment. Appeals must be submitted in writing within 3 calendar months of the date of the initial assessment outcome letter. Applicants making an appeal must pay the appeal fee. Any additional costs incurred by the applicant as a result of the appeal process are the responsibility of the applicant.

Re-assessment Fee: If you have previously been assessed as "suitable" by the AIQS and wish to have further assessments made within 2 years of your initial assessment, you will need to complete a new application form; resubmit all documents with up-to-date information and re-certified as per the current requirements; as well as the outcome letter and pay the re-assessment fee. The full and completed re-assessment with all required supporting documents and payment of fees will need to be submitted within the 2-year timeframe. However, should you wish to be re-assessed after 2 years of your initial assessment, it will be treated as a new application and a full assessment fee will be charged.

Applicants may submit differing information from the initial application. However, all requirements must be satisfied accordingly. Where an employment period was deemed "not suitable" and an alternative reference letter is supplied, justification must be provided to fully support the new referrer (this may include org charts, qualifications, etc).

Please note that any applications received from individuals who have previously been deemed "not-suitable" will be required to re-submit their application form and pay the full assessment fee.

The current fees are found on our website here:

<https://www.aiqs.com.au/skilled-migration-overview>

Note: All fees must be paid in **AUD** only.

4.4 QUALIFICATIONS ONLY ASSESSMENTS

This option may be used for the purposes of Skilled Migration, however, the Assessing Authorities Quality Assurance (AAQA) functioning through the Department of Education, Skills and Employment (DESE), requires that applications for Skilled Migration are to be based on a combination of an applicant's qualifications and work experience.

Providing invalid English Language Test Results and/or failing to demonstrate English Language Competency and/or failing to present English Language Test Results in the application may result in an immediate unsuccessful outcome.

11. APPEAL PROCESS

The AIQS provides an appeal process for consideration of any applicants who object to the overall “*not suitable*” findings of their skilled migration assessment.

Appeals (full and completed appeal application) must be submitted in writing within three (3) calendar months of the date of the initial assessment outcome letter. Applicants making an appeal must complete the Appeal Request Form with the details of the appeal. Payment of the Appeal Fee must be included at the time of submitting the Appeal Request Form. This fee is non-refundable.

The appeal will be reviewed by an Appeal Panel consisting of two Skilled Migration Assessors who have been appointed by the Institute, however will not include the Assessor who made the initial decision which is being appealed. Assessors are all senior members of the AIQS who have a wealth of experience working in the Quantity Surveying profession in Australia.

If an applicant lodges several consecutive applications through different pathways, only the latest dated outcome letter will be deemed valid. Therefore, appeals may only be considered on the most recently dated outcome letter.

Applicants may submit differing information from the initial application. However, all requirements must be satisfied accordingly. Where an employment period was deemed “not suitable” and an alternative reference letter is supplied, justification must be provided to fully support the new referrer (this may include org charts, qualifications, etc).

Once an appeal has been made, the results of this is considered final. No further appeals can be lodged on the same application.
